Summary of Information

The ships in port are red, black and blue in color. A white vessel is in the poorest condition. Fishing vessels and work related crews are among the group. The little red one is for the purpose of fishing at sea. This one is the first to leave port. None of these vessels are currently carrying drugs. A large blue vessel which can reach a high speed is associated with drugs and will leave this port zone on Thursday at 10:30. This vessel is not as huge as the black one. Please see attached sheet for some description of i [redacted]
